

Sika Class Newsletter

20.9.19

Another exciting and action packed week in Year 4!

English

We have been using 'The Romans: Gods, Emperors, and Dormice' to learn about Roman myths. This week we have been learning the creation story. We compared the Roman Creation story to others we had heard and used story maps and drama skills to retell the story.

Maths

This week we have been learning to understand Roman Numerals. The class have really enjoyed learning how to read Roman numerals and demonstrated fantastic problem solving skills.

Wider Curriculum

If possible, please attend the Curriculum workshop next week as amongst other things we will share the class timetable and detail the parts of the wider curriculum your child will be enjoying this term. Each week I will aim to highlight one part of the wider curriculum in this newsletter your child has studied that week.

Computing

The class have been using code.org to learn how to debug a programme. They 'journalled' about the lesson to explain the challenges and achievements they faced. The class were given a line of incorrect code and had to either extend it or find the incorrect part and change it.

Key Stage 2 Curriculum workshop

Thursday 26th September at 3:30 pm- Classroom

Macmillan coffee morning

Friday 27th September at drop off- Lunchroom

Alfie

Alfie has demonstrated a mature attitude in the classroom and fantastic teamwork in the playground, always cheering on others.

Well Done Alfie, keep it up!
